Per Abby Leigh, la luna viola era solo l'inizio...

La polvere di una cometa di passaggio tinge la luna di viola, ma è anche portatrice di un agente patogeno letale che aggredisce gli ormoni prodotti durante la pubertà. Gli adulti muoiono nel giro di poche ore. La tredicenne Abby deve aiutare suo fratello Jordan e la sua sorellina Toucan a sopravvivere in questo nuovo mondo. Abby combatte contro la fame e gang violente, ma è impotente di fronte alla minaccia più terribile: la bomba a orologeria che è la sua adolescenza.
